*Listed Funding Opportunities*

**1. Limited Competition for Research Centers in Minority Institutions Infrastructure for Clinical and Translational Research (RCTR) [U54]**

**Application Due Date(s): November 18, 2009**

Purpose: To support the development of infrastructure required for the conduct of clinical and translational research in institutions funded via the Research Centers in Minority Institutions (RCMI) Program. The RCMI Infrastructure for Clinical and Translational Research (RCTR) represents a re-organization of the existing RCMI programmatic activities in support of clinical and translational research.

**Sponsor:** US Department of Health and Human Services, Public Health Service, National Institutes of Health, National Center for Research Resources.

**2. Global Health Initiative: Faculty Travel Awards**

**Application Due Date(s): December 4, 2009**

The Global Health Initiative (GHI) is seeking applications for Faculty Travel Awards to facilitate the development of new Global Health research collaborations. GHI goals include stimulating and supporting faculty research to enhance health around the world. The awards will provide seed funds for faculty to travel to low- and middle-income countries to establish new research collaborations and to plan new research projects. These awards will not fund research itself, but will fund the planning of new research.

**5. HIV/AIDS Grants from John M. Lloyd Foundation**

**Application Due Date(s): December 15, 2009.**

The Foundation's specific funding objectives are as follows:

1. To increase funding from public and private sectors to address the HIV/AIDS pandemic,

both globally and domestically

2. To improve domestic and international policies; to apply universal protections of human rights to issues concerning HIV/AIDS, to expand access to HIV/AIDS healthcare and treatment, and to ensure access to accurate information about HIV/AIDS

3. To amplify global awareness of HIV/AIDS and to facilitate broad-based change in attitudes to reduce stigma and change behavior

4. To develop the leadership of organizations that fight HIV/AIDS; as well as to foster collaborations among those organizations and leaders

**Sponsor:** The John M. Lloyd Foundation, a private family foundation.

**6. Recovery Act 2009 Limited Competition: AHRQ Clinical and Health Outcomes Initiative in Comparative Effectiveness (CHOICE) Grants (R01)**

**Application Due Date(s): December 16, 2009**

This AHRQ Funding Opportunity Announcement (FOA), supported by funds provided to AHRQ under the American Recovery & Reinvestment Act of 2009 (“Recovery Act” or “ARRA”), Public Law 111-5, invites Research Project Grant (R01) applications for large projects in comparative effectiveness aimed at generating new knowledge to help inform decision making in priority areas of clinical care. The impact of these studies should have a high likelihood of creating major advancements in clinical care.

**Sponsor:** Agency for Healthcare Research and Quality (AHRQ)

**8. Developing Research Capacity in Africa for Studies on HIV-Associated Malignancies (D43)**

**Application Due Date(s): December 17, 2009.**

The purpose of this Funding Opportunity announcement (FOA) is to strengthen research capacity in HIV-associated malignancies in sub-Saharan Africa. This FOA solicits applications for strategic, collaborative cancer research training programs based on partnerships between United States (U.S.) and African researchers. These training programs are expected to build multidisciplinary research teams of African investigators, including physicians, other clinical scientists, basic research scientists, epidemiologists, pathologists, data managers and other required personnel.

**9. Exploring Epigenomic Processes and Non-Coding RNAs in HIV/AIDS (R01)**

**Application Due Date(s): December 23, 2009**

Purpose: To enhance our understanding of the role of epigenomics in HIV infection and pathogenesis in combination with substance abuse. This FOA invites applications proposing innovative research to stimulate new areas of research or develop new approaches to existing studies. Newly formed collaborations to foster sharing of expertise between the fields of HIV/AIDS, drug abuse, and epigenomics research are encouraged.

**Sponsor:** Department of Health and Human Services (HHS), National Institutes of Health (NIH), National Institute on Drug Abuse (NIDA)

**21. FY09 President's Emergency Plan for AIDS Relief (PEPFAR) Military Specific HIV/AIDS Prevention, Care, and Treatment Program - DHAPPBAA09002**

**Application Due Date(s): September 30, 2010**

The US Government has a long history and extensive network of international collaboration and partnerships in the fight against HIV/AIDS, providing funding, technical assistance, and program support. These collaborations increase the fundamental understanding of HIV and provide a basis for prevention, care, and treatment activities. The current HIV/AIDS epidemic is devastating. Militaries, in particular, have been identified as a high-risk population. In order to target this population, the Naval Health Research Center (NHRC), San Diego, California, under the oversight of the Navy Surgeon General and Naval Medical Support Command (NMSC), has been tasked to serve as the US Department of Defense (DoD) technical oversight for the DoD HIV/AIDS Prevention Program (DHAPP).

**Sponsor:** United States Department of Defense (DOD), Department of the Navy, Naval Supply Systems Command.

**25. Mental Health Dissertation Research Grant to Increase Diversity (R36) (PAR-09-132)**

**Application Due Date:** Standard Dates Apply

<http://grants1.nih.gov/grants/funding/submissionschedule.htm#AIDS>.

**Expiration Date:** January 8, 2012

The purpose of this funding opportunity is to increase the diversity of the mental health research workforce. It will enable qualified doctoral candidates to pursue research careers in any area relevant to the research mission of the National Institute of Mental Health (NIMH). These awards are available to US citizens or permanent residents who are predoctoral students advanced to candidacy in accredited research doctoral programs in the United States (including Puerto Rico and other U.S. territories or possessions).

**26. Biobehavioral Methods to Improve Outcomes Research (R01) (PA-09-125)**

AIDS Application Due Date(s): Standard dates apply, please see

<http://grants1.nih.gov/grants/funding/submissionschedule.htm#AIDS>.

Expiration Date: May 8, 2012

This FOA issued by the National Institute of Nursing Research (NINR), the National Institute of General Medical Sciences (NIGMS), the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), the National Institute on Deafness and Communication Disorders (NIDCD), the National Cancer Institute (NCI), the Office of Biobehavioral and Social Sciences Research (OBSSR), and the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS), National Institutes of Health, solicits Research Project Grant (R01) applications from institutions/organizations that propose to foster biobehavioral research and develop innovative research designs, methods of measurement, and data analysis techniques. Designs and methods that examine the impact of biologic and behavioral variables on individuals' health outcomes and quality of life are encouraged. Scientists are encouraged to increase the interface of biobehavioral research and clinical practice in existing core and exploratory centers and training programs by sharing findings and designing collaborative research projects. Ideally, interdisciplinary researchers should overcome differences in

perspectives, incentives, and methods by going beyond usual collaborations to engage others to solve problems creatively and efficiently.
